This book is the 6th in the series. It was great!

This is the sixth in the series and I have read them all. They are all really good. I love them because they are very funny, they are easy to read and are broken up with lots of pictures.

With each book is added 13 more storeys to the treehouse.

I liked the part where they were making the movie the best.

My sister and I both read this book within a day it was so good. I hope the treehouse gets very tall so there are more books.

Elizabeth Bridgeman, age 9

I really like this book. It's about Andy saving Treehouse the Movie from spy cows.

My favourite character is Jill because she rescues animals in danger. This would be great for 8 years and over.

I really like this book because it is funny, educational and creative. This book is about Terry, Andy and Jill and Andy hates Terry because he got into Mr Big shot's movie not Andy but when he spots cow spy's stealing their movie he has to save it as well as catching a chip thief. This book should be for 8+ because any younger won't understand it. I rate this 5 out of 5 because it is really funny and imaginative. I would like to read 'The 65 Story Treehouse', 'The 52 Story

Treehouse', 'The 39 Story Treehouse', 'The 26 Story Treehouse' and finally 'The 13 Story Treehouse' and coming soon in August 2017 'The 91 Story Treehouse'.

A hilarious Treehouse tale. The most jokey tale told. The best comic characters ever created. This book has everything. I would recommend this book to ages 6-11.

Fun and excitement filled with humour jumps out of the pages creating a comic book full of delight. Even though the book doesn't take long to read, it's great if you're looking for a short novel! The words are simple. Compared to many other books, 'The 78-Storey Treehouse' isn't very predictable as you expect nothing to happen. That is why it is a great read.

The beginning blows you away laughing. There are so many cliff-hangers and surprising moments. For younger readers it will most likely take them a slightly longer time to read. However, I'm sure they will enjoy reading it. Also the font is quite big which means it will make it easier for the younger readers!

If I Could describe the comic book in 3 words, they would be: fun, exciting and humorous! Enjoy reading!

Emily Golding, age 9

This book is brilliant! I laughed the whole way through! A word of warning to you readers: ***NEVER, UNDER ANY CIRCUMSTANCES, TURN YOUR BEST/EX FRIEND INTO A STRAND OF SPAGHETTI!!!*** Following the 5th book, Andy and Terry have yet MORE mad adventures with crazy ,big-nosed men; mad producers; monkeys ...no, sorry, GIBBONS playing humans in movies; spy cows making MOO-vies by copying Terry's movie; I did not stop belly-laughing(yes, really, it made me belly-laugh!) Terry Denton's drawing perfectly complements Andy Griffiths's book; it wouldn't be complete without them! Hilarious!

Ellen Cox, age 10

The best book ever! A very, very, very good story it is set out in a good way and I have been intrigued to read some more of Andy and Terry's books.

Phoenix, age 9

'The 78 Storey Tree House' is an amazing book full of adventure. This book has lots of unique characters.

Isaac East, age 11

10 out for 10 for the 78 storey tree-house and Andy Griffiths. This book is packed full of comedy, movie making and a little bit of action.

In this book a big Hollywood director comes and makes them movie stars, but trouble comes too. When Andy gets left out and accidentally messes up the movie trouble erupts.

The 78 storey tree house is bursting with laughs, pictures and broken friendships. If you like diary style books then you will love this.

I would recommend this book to comedy lovers, a touch of action and friendship stories.

Tomasz Hawryszczuk, age 11

This series is one of my all-time favourites. Two boys, a treehouse and lots of cool things to do to occupy their time. Highly recommend this book to boys, especially those who don't enjoy reading.

I have read all of these books in the series and will never get bored with them. I like it every time the author adds more storeys to his treehouse. The illustrations are amazing. There is so much to look at, so much detail. I read them over and over again. I probably spend as much time looking at the illustrations as I do reading the books. These are the perfect books for reluctant boy readers as the characters Andy and Terry are typical boys having fun in an amazing treehouse which has now got the addition of a Movie theatre and a car wash! Hilarious! I can't praise these books enough. They are just so much fun. I wish I had a treehouse like this!

Lauren Evans, age 10

This was a quick and easy book to read, was one of those books that helps you to relax and fall asleep. I would recommend it to boys and girls.

I read this at night times mostly to help me settle down and relax. The plot is easy to understand and hard to put down. I would recommend it to both boys and girls. I found it adventurous and addictive.

Evie Aconley, age 10

This book was interesting and funny and for those who like adventure. I would recommend this book to boys and girls of all ages.

A really funny book for those who like humour and adventure for the adventurous. Many people will find this book drawing them in as the book comes to life. Andy and Terry, who are good friends, have multiple adventures in one book and add 13 stories to the treehouse every time.

Max Chilvers, age 10

This book made me laugh out loud, because of the super silly story and the funny illustrations. I'd like to find out more about Andy and Terry's crazy adventures.

This book tells the story of Andy and Terry who live in a massive treehouse. They are having a movie made about their lives in the treehouse and Andy isn't allowed to be in it. Andy tries to find something else to do, so he goes to try and hatch a giant egg but he just gets bored. He also tries to find some fun in scribbling but the scribbletorium explodes and he's banned from the treehouse. He goes to Andyland, and gets the Andy clones to infiltrate the treehouse movie so he can be in it. This leads to adventures with spy cows, a potato chip mystery and Andy and Terry having a huge space battle.

My favourite part was when the space battle was ongoing, and when they tried to hurt each other it ended up being really funny. The place in the treehouse I would most like to visit is the combining machine, where I could combine lots of different animals with some crazy objects. I would recommend this book for the humour and the simple but effective illustrations.

Alejandra Molina, age 8 (Verena Tucker)

This book is funny but sad, as a friendship gets broken. I loved the illustrations and the spy cow! *This book is about two friends and one day their friendship gets broken. Andy finds out that there are spy cows spying on*

their movie and copying their ideas. My favourite characters are Andy and Terry. The funniest part for me is when Terry pants catch fire. You should read this book because it is funny with lots of interesting parts.

Daniel Maxwell, age 11

The 78-storey treehouse is a good book for young children because it is a great story that children can easily read.

The 78-storey treehouse is a book about two boys (Andy and Terry) who live in a 78-storey treehouse.

One day a film director meets them and decides to make a film about their life in the treehouse. But sadly Andy is left out and is replaced by a gibbon, who pretends to be Andy in the film! Soon Terry becomes best friends with Mel Gibbon not the real Andy! Can Andy get his best friend back? Read the book to find out.

Lewis Briggs, age 10

Funny, exciting, fantastic! The 78-Storey Treehouse is a comedy book with bags-full of laughter. Definitely a favourite of mine. My favourite part is when Andy accused Terry of stealing his chips.

Georgie Docwra, age 11

This book has fantastic illustrations and was really, really funny!

I have read a couple of the previous treehouse books and have really enjoyed them.

The story is about friends Andy and Terry who make their own treehouse movie.

I really like the way the different places in the treehouse are described. Some of my favourites include the Scribbletorium, where you can draw all over the walls! And Andyland, because I think it would be really cool to have clones of yourself!

My favourite characters are Andy (also the narrator of the book) as I liked his personality and Jill, as she helped Andy and Terry to become friends again.

Melissa Broomfield

This is my first book by Andy Griffiths and now I want to read some of the other books because the 78- storey tree house was so funny, strange and exiting. It would suit someone between the ages of 8 and 11 who likes books like the ‘Wimpy Kid’.

I give this 4 and 1/2 out of 5 stars.

Daniel Bisland, age 9

This book is about two boys called Andy and Terry who live in a treehouse and who write books together. This story starts when they want to make a film about a book they wrote, so, they hire Mr Bigshot to direct their movie. He thinks the movie is EXTREMELY bad!

Later that day, Terry comes running past with his bum alight and jumps into their shark pool and electrocutes a shark that nearly eats him whole! When he gets out of the pool, he also electrocutes Mr Bigshot. This all happens because Terry got attacked by an electricorn, which is an electric eel and unicorn combined.

Mr Bigshot has a lightbulb moment – he can make this into a film! Soon, they are ready to film. This is where the story begins...

Does the film go to plan?

What is Terrytown?

What is Andyland?

I recommend it to 8+. I give it 5**. I really found it funny and liked the illustrations.***

Sam Harper, age 12

This book is really, really, really funny. I haven’t read a book by Andy Griffiths and Terry Denton which isn’t hilarious.

Told in a mixture of cartoons and words, this book is really, really, really funny. *It’s a story about Andy, Terry, Jill, with her intergalactic space animal rescue service, and the 78-storey treehouse which they live in. I read it in a day and it’s a great addition to the Treehouse series of books. If you haven’t read any of these you should really take a look along with any other books by Andy Griffiths and Terry Denton that you can get your hands on like Help! My*

Parents Think I'm a Robot and 9 Other Just Shocking Stories. I haven't read a book by these guys which isn't hilarious, honestly!

Sami Kayali, age 9

This book has lots of fantastic and amazing adventures. The protagonists are Andy and Terry. They live in a gigantic tree house which has 78 floors. It is very easy to read because it has lots of great pictures. I can't wait for the next book, the title is going to be 'The 92-Storey Tree House!'

Amina, age 10

I absolutely loved this book full of imagination and drama. The challenge is to find a cow on every page. I'm sure everybody will want to buy this book. This book has a lot of drama so go on read it.

*I loved this book. It was very funny and imaginative. I loved all the different storeys of the treehouse. There was a lot of drama and you had to find the cows in every page. I wish I could be Andy, Terry and Jill all at the same time but mostly Jill because I would love to zoom of into space. I think that people all ages will love this book because I certainly did. If there is going to be a new one I would definitely buy it. I'm going to find the other books and get them now. It has a lot of detail on the different floors. So **go ahead read it. Trust me you'll love it.***

Ginebra Ramos, age 9 - Verena Tucker

I really recommend this book because it is so funny! My favourite character is Andy but Terry is also funny. It has lots of good sketches in it.

This book starts with the person who is filming: Mr Big Shot. He doesn't include Andy in the film but does include Terry. Andy always says he has more important things to do like sitting in an unhatched egg. There are some really funny parts when Andy goes to Andy Land and all the Andy's are going to see Terry the Movie Star. There are funny things like falling off stairs and breaking them. The book is very funny.
