This is a brilliant book. 'Bad Mermaids' deserves 5 stars!

I loved 'Bad Mermaids'. The story is so funny and the mermaids are so cool! My favourite character is Zelda because she is the funniest. I really loved the story and how they find Arabella. I loved this book and would give it 5 stars! The cover is also really cool and shiny and all of my friends said how cool it looks!

'Bad Mermaids' is a really good book because it is exciting and

adventurous and sends you into a magical world of watery fun.

I knew that this would be a brilliant book because I have read lots of the 'Witch Wars' books, and I think that Sibeal Pounder is a fantastic author.

Zelda, Beattie and Mimi are three good mermaids who are having a summer break 'with legs'. They receive a message from the head mermaid calling them back into the water to stop the bad mermaids who have kidnapped her.

The three girls go on a loads of adventures to try to find out who the bad mermaids are and where they are keeping Arrabella Cod, the head Mermaid, leading them to visit loads of other leaders and their own kingdoms.

I like the way that the author has used her imagination and made a talking seahorse called Steve to help them, along with a mysterious mermaid called the

Swan who won't reveal herself at all. Everyone wants to know who she is!

Robyn Chorley, age 8

I love this book, the characters are funny and I especially liked Steve the Seahorse.

Robyn has really enjoyed reading this book. She's found it funny with lots of characters that she likes. I think it's been a good read for her, not too easy yet not so difficult that it put her off. I think we'll be buying 'Witch Wars' by the same author.
