**James McNichol, age 6**

**Simply delightful.** What a beautiful little book. The story is delightful and the illustrations are charming. I wish there were more childrens books like this one.

**Robert, age 6**

**An excellent story for early readers.**

This is a lovely, relatively short story, with charming colour illustrations. It is great for 5 -7 year olds. Quite educational, giving young

children an insight into the past when there were no mobile phones or ipads etc. There was a mixed response from my son to the book and the characters. 'I liked the story...I don't want to be a telegram boy because it would be boring...I liked the happy ending.'

**Liam Hill, age 7**

**I read this book really quickly because I wanted to know how it ended. It must be exciting to be a telegram boy. I wish I could be one.**

This book is about Billy whose mum and dad run the village shop and post office. The telegram boy hurts himself and Billy then becomes the telegram boy. He delivers telegrams all over town. One day there is a lady visiting her friend in town, then she leaves but Billy helps to get her back to her friend. Do they live happily ever after? You better read this book to find out!

**Amatullah Khatun, age 6**

***This book was easy to read and kept Amatullah interested till the very end.***

*Billy Button's father runs the Post Office and Billy hopes to be a telegram boy one day. When Charlie, the current telegram boy has an accident Billy's wish comes true. Although he may not be old enough or big enough for a uniform he tries his hardest. With all the telegrams he has to deliver all over town he's kept busy throughout the holiday.*

*This is the first chapter book Amatullah read cover to cover. She found it easy and the short chapters were ideal. **The illustrations complemented this interesting story beautifully.***
