*Judy Moody is always in a mood – good moods, bad moods, all types of moods; she has them all. She has a brother called Stink and a best friend called Rocky. **The illustrations are amazing and I'm pretty sure this book will put you in a good mood. I loved it all.***

**Imogen Beverley, age 8**

***Judy Moody gets into a terrible state about lots of things with hilarious results. Read all about it in Megan McDonald's hilarious story.***

*Judy Moody likes holidays, collecting gem stones, her new pet Venus fly trap (Jaws), her friend Rocky, her toy doll - Hedda-Get-Betta, and blue ice cream. Judy Moody gets in a terrible mood about her little brother Stink, school, homework, parties, parents and kids who eat paste.*

***This is a funny and entertaining story** as Judy often makes hilarious mistakes and just can't control her temper!*

*I would recommend this book for readers aged 6-10 years.*

**Lucy Collings, age 7**

***Be introduced to Judy Moody and find out all the funny things she gets up to!***

*'Judy Moody' is a good book because it is funny and exciting. Meet Judy Moody and her brother 'Stink' and her friends Rocky and Frank.*

*Judy Moody has been inspired by Elizabeth Blackwell, the first woman doctor and she is trying out her doctor skills on everyone around her.*

*Join her through lots of funny events including a toad peeing on her hand!*

*I liked this book because I have read other Judy Moody stories and it was good to read the first one to explain more about her and I also found it the funniest one!*

### **Lucy's mum**

***The book is split into short chapters which makes it easy to follow and there are lots of drawings as well.*** *Judy Moody was written as an exaggeration by the author of the experience of growing up with four sisters. She's an independent minded girl - everyone knows a Judy Moody!*

### **Amatullah Khatun, age 7**

***We will definitely be looking out for more Judy Moody titles. A sassy girl who isn't afraid to speak her mind.***

*We've heard of Judy Moody before but never got round to reading the books until now and that Judy sure is VERY, VERY moody. It's the end of the summer holidays and Judy does not want to go back to school. Even though her new teacher is nicer than she expected, Judy doesn't give anything away. The class have been set the task of making a 'Me Collage' which proposes problems for Judy.*

*Amatullah enjoyed the book very much. She found the story **easy to read and hilarious** especially the bit where Judy answers the phone to Frank, the boy whose party she doesn't want to attend. But she also thought Judy is a bit mean to her little brother, Stink. The illustrations by Peter H. Reynolds are great, bringing the story to life.*

### **Rob, age 8**

***An easy to read book which is quite funny.***

*The book is about Judy Moody, her family and friends (and Frank who is just annoying). A lot of it is about her school project - her Me Collage.*

*My favourite part was about the Venus Fly Trap. I thought it was funny that this is her favourite pet and that its name is Jaws. I liked Stink, Judy's little brother. I thought it was clever of him to sell rock dust as moon dust. The book is a bit like the 'Dirty Bertie' books. It is easy to read and quite funny.*

**Prisha Yadav, age 8**

***Interesting book with lots of moods.***

*I enjoyed reading this book. In this book, the character Judy Moody is very interesting because she had all types of moods. I also liked her little brother Stink who is very funny. I enjoyed reading how she and her best friend Rocky made a surprise club. My favourite part was how she rectified her 'me collage' project. I learn that when something gets ruined, it can be changed to something good. I also loved the way the teacher "Mr Todd" gave interesting spelling and projects. **I think that all children would love this book as it has a different storyline.***

**Sam Radford, age 7**

***It made me laugh, and I love Judy's pranks! She is really cheeky.***

*I thought it was really funny - especially the TP club! The talking tooth was also funny. The characters were good and I liked them, especially Stink. Judy played some good tricks. It's a good story to make you laugh.*

***'Judy Moody' is a fun book. It's good because it's like a diary of her life. Judy is a funny fun girl. The pictures also make the book fun to read.***

*Judy was my favourite character because she is a funny fun girl. One of the best funny bits is when they put a rubber hand on the toilet as a joke for her brother, Stink. I particularly like the end when she finishes her me collage after her dad messes it up. I like how it all works out for her in the end.*

**Sarah, Y8, Thorp Academy**

*The story is about a girl called Judy Moody who is going into third grade. She is worried about sitting next to Frank 'eats paste' Pearl. She didn't go anywhere during the summer so she doesn't even have a t-shirt with words on like all the other kids. Judy decides to make her own. She drags her feet to the bus stop to find her best friend, Rocky. Her new teacher Mr Todd, or as Judy likes to call him Mr Toad, has assigned the class an exciting project. A Me-collage. Judy keeps her family busy by doing pranks, asking for pets and so much more. This book is very humorous and kept me amused all of the way through. **It is the first 'Judy Moody' book I have read but I would really like to read others from the series. I would recommend this to readers 10-13 years old.***
