BOOKS

Below are the complete reviews, written by the LoveReading4kids members.

Kyra, age 17

Within the pages of this book I lost myself, but it was within these pages that I found myself too. Sensational and unforgettable, falling in love with this book came as naturally as breathing.

'The Moonlight Dreamers' is the kind of book that melds with your being and settles inside your heart and you know, with an unyielding certainty, that it is a book that is the missing piece to the puzzle of who you are as a person. It was breathtakingly beautiful, it was comforting, it was everything I wanted - and everything I needed. I opened up this book, I climbed inside it and I felt as if I was walking into a

place I called home.

Phoebe Allan

So I had this challenge of reading this book in a day, except it wasn't a challenge because once I started reading it, I couldn't put it down!

Curham's plot is magical, witty, sad, and funny and tackles some tough issues that all teenage girls will relate to. Like a spider's web, the complex lives of the characters are all interweaved to form a beautiful end result. I loved this book, it made me wish that I could be one of the 'Moonlight

Dreamers'! Fingers crossed that Siobhan Curham returns to the lives of Amber, Maali, Sky & Rose & that we have a sequel soon!

A definite thumbs up!

Edel Waugh

'The Moonlight Dreamers' is the book I've been waiting to be written for years - female empowerment, realistic, creative female characters, and ordinary girls with extraordinary ways of looking at the world. I completely loved the idea of a group of girls finding each other by chance, all with a similar need for a real honest to god friendship with no fakeness, each supporting and encouraging each other. We need more of this in the world. This was a completely magical story. I loved it. If you like books about being different yet still fitting in this is the book for you. P.s Oscar Rocks!

Jessica Anderson, age 13

*When I picked up 'The Moonlight Dreamers', I thought the book was going to be lame and predictable however I really enjoyed the book and I like the originality of the storyline. **I loved the way poetry was used throughout the book, it was very well written and I adore the poem Awaken Your Sleeping Beauty.** I think that the messages the book show are very clear. The way that Oscar Wilde quotes and references were used in the book was cleverly done, and has made me now want to read some of Oscar Wilde's work.*

The book is relatable to real life, with the mean 'OMG's' and bullying. It addresses topics such as gay relationships (though not in depth, which is better for younger readers), peer pressure and pushy relationships. Overall I would definitely recommend this book to other people, and I will definitely go and buy some of Oscar Wilde's works.

Felicity Kerswell, age 13

A great read!! This book will make you scream and laugh but you will want to read more and more. The quotes throughout the book are lovely. I loved this book and I hope you do too!

This book is amazing! I loved every part of it especially the friendship the characters shared throughout the book. I also loved the quotes from Oscar Wilde which are scattered throughout the story.

Amber is a lonely girl at school and after reading a poem written by Oscar Wilde she decides to start a club. She decides to give a flyer to two other girls inviting them to join the club. The two girls joined the club and invited another girl to join too. This story is a journey of someone who is lonely making some friends and the story of why the others girls joined the group.

This book is full of different emotions and you feel every one of them as you read. I would definitely recommend this book to a friend and I give it five stars.

Destiny Maraj, age 14

*This novel isn't the type of book I usually read but **I absolutely loved it. It was so original and heart-warming.** I really enjoyed how the four girls were quite different all having individual problems but that it brought them closer together celebrating their friendship.*

Humaira Kauser, age 18

Siobhan Curham is a genius and works wonders with words. Keep an eye out for her!

I liked this book a lot. I say this almost all the time whenever I finish a book (my favourite book is usually the last one I read). But there is something about this book that I just connect with.

Aimee Sweet, age 14

*The Moonlight Dreamers is about four girls brought together through a common belief: that they were different. The main themes are friendship, facing your fears and acceptance of who you are. **It is fast paced and easy to read.** It is multi voiced and in that way it tackles a variety of different issues for example, Rose has been in the spotlight for years due to having famous parents and when something happens that threatens to change everything, she turns to her friends, The Moonlight Dreamers for help. This book is recommended for ages 12 plus and I give 3.5 stars.*

Isabella Ettery, age 14

The Moonlight Dreamers is a captivating story for readers 12+ about standing out from the crowd and being different. I love how the story keeps switching

*between characters, which helps you understand each of the girls' issues and points of view. Nothing extremely exiting happens in it but I feel that nothing major needs to occur as you follow the girls through their varied everyday lives. This story digs deep into what each friend is doing and shows that you don't have to be the same as everyone else, which is a great message to get out to teenage girls. I thoroughly enjoyed this book and would recommend it to a friend who doesn't want to read particularly scary, romantic or action packed books and would like a relaxed read. **I would give the moonlight dreamers 5 stars because it was enjoyable to read and addressed real problems that go on here and now all of the time.***
