*This book is fast paced and full of action. Even the most reluctant reader will find it hard to put down. **I loved this book because it was very adventurous. It's full of mystery and magic and very different to other books I have read.** I love the bit at the back that tells you how to do tricks. I love the detail of the tricks in the book.*

The characters I like best are Alex because he started shy and ended up being quite brave and Zac because he was witty.

I would recommend this book to those who like mystery and adventure and something a little different.

I like this book because it has lots of adventures and lots of fun facts. It is quite a long book but those are the kinds of books I like and in this one the story keeps you reading until the very end. 'The Young Magicians & The Thieves Almanac' is a brilliant book by Nick Mohammed. It is about four young magicians that go to a place in London that is called The Magic Circle. The Magic Circle is where all magicians train and they have lots of adventures. One day they get a letter from some thieves and they have to save the World.

My favourite character is Sophie, she is best out of all four magicians, in my opinion. She can hypnotise anyone and in part of the story she hypnotises all of

the staff at a hotel into thinking she is 56 years old.

It is quite a long book but those are the kinds of books I like and in this one the story keeps you reading until the very end.

*I wish they had included more magic tricks in the book even though the magic trick described is very good. **I am really interested in magic and I would recommend this book to everyone who is interested in magic too. This book** is certainly a six-star book and **will be on my favourite book list.***

Excitement, adventure, thrill and mystery all in one book. I couldn't stop reading! *I loved this book so much that I couldn't stop reading and I was sad when it ended. Nick Mohammed has given the characters fascinating personalities and created a thrilling plot with a cunning twist! It kept me guessing all the time and I want to tell you my favourite part but I don't want to give away any spoilers! I felt like I was actually in the book with Zack, Sophie, Jonny and Alex, facing all the adventures with them! Overall, I enjoyed this book so much that I hope there will be a sequel to it!*
