

# LoveReading4kids Reader reviews of Pugs of the Frozen North by Philip Reeve & Sarah McIntyre

**Below are the complete reviews, written by LoveReading4kids members.**

**Emily Lonsdale, age 9**

***Such a fun book, very different.  
Loved the talking snow.***

*I read the sample for this book just two chapters (nine and ten) and I really want to read the book. It's about a race to the top of the world but a strange bunch of people with even stranger things pulling their sleds (like polar bears) In these chapters one of the characters Sika gets captured by Yeti's who are running a noodle bar. When she gets inside the bar she finds most the other competitors eating snow noodles which appear to transform you into Yeti's the more you eat them. Sika and her friends are stuck there as they are tricked and don't have the money to pay for their noodles. The rest of the chapter is about how they escape.*

*I liked these chapters as it's very funny. The snow talks and insults the Yeti's and the pictures are an added bonus.*

**George, age 6**

***'Pugs of the Frozen North is a funny, exciting and a good book.***

*I would recommend it for 5+.it is about some children racing to the top of the world (if there is one) and people eating snow noodles and turning into yetis.*

**Dylan Pritchard, age 8**

***I would definitely recommend this book - it's very, very funny!***

*I really liked reading the chapter sampler of this book. It was very funny and I would recommend it. My favourite character is Shen because he is cunning and is able to trick the yetis. I thought the illustrations were fantastic. I can't wait to read the full book.*

**Sam Harper, age 11**

*'Pugs of the Frozen North' is a very funny story about two friends, Sika and Shen, who take part in the Race to the Top of the World, with the fantastic prize of whatever their heart's desire. Their sled is pulled by a team of 66 pugs in warm woolly jumpers and all is going well until they are diverted by the evil Sir Basil Sprout Dumpling and kidnapped by hungry yetis. The yetis only want them to eat some of their favourite food, noodles, at the Yeti Noodle Bar but, unbeknown to them, the noodles turn people into yetis. When they can't pay for their noodles they are forced to do the washing up and there are a lot of dirty dishes as yetis hate doing the washing up! Will the competitors ever finish the mountain of washing up or will they all be turned into yetis?*

***A really funny story full of yetis, noodles and weird snow. If the rest of the book is as good as this, it's going to be amazing!***

**Evie Aconley, age 8**

***I really enjoyed reading the sneak peek of this book, it should be a great book to look forward to reading.***

*In this sneak peek of the story the yetis make snow noodles out of the singing echoing snow. It was a funny book with lots of interesting characters and features. If the sneak peek is anything like the full story then the book will be really good and I can't wait to read it.*

**Lauren Randall, age 7**

***Wasn't expecting to like this book but don't judge a book by its cover.***

*I really enjoyed reading two chapters of this book sample. I found some bits very funny like the song about noodles which I really like. The book was difficult to get into because I didn't know the characters very well but hopefully the full book will explain them better.*

**Rachel Zinkin, age 8**

***A mad adventure with amazing illustrations and lots of fun.***

*I really liked the extract of 'Pugs' and enjoyed looking at the drawing of the scene where all the adventurers were eating noodles. There was so much to look at and take in. The main characters seem like good friends, which is really nice to read about, and there is non-stop adventure with lots of wacky and weird things happening. The whole book is a race and I can't wait to read the whole book to find out what happens in the end. The drawings are fun and wild and exciting. It did remind me of 'Oliver and the Seawigs' because the whole story is so imaginative and different from anything else.*

**Jessica Cobbin**

*She said: "I thought it was imaginative and I liked the different types of snow. I would like to see "echo snow". If you like fantasy or books with races in them, you would love this book. It's got yetis in it, but don't be scared because they just want you to eat their noodles. My advice would be - don't eat them because something bad might happen to you...**I loved this book as it's a story about cute pugs and I love them. This book is so fun to read"**.*

**Anissa-Maria El-Asmar**

***There wasn't one thing I didn't like in this book.***

*My favourite bits were: I liked it when they were singing it made the book interesting and funny. Suki was my favourite character as she made a mess eating noodles like I do. I really enjoyed reading the sample I read it in less than an hour I couldn't put it down and was smiling and laughing reading it.*

**Gabriella Chatman, age 8**

***Pugs of the Frozen North was very funny, I loved it. Shackleton Jones and Sika made me laugh.***

*Pugs of the Frozen North made me laugh, my favourite bit was when they kept eating snow noodles! The illustrations in this book are really good and bring the characters to life. I love all the characters names especially Mitzi von Primm.*
