***A heart- wrenching, climatic book with huge plot twists and lots of drama with a hint of sweet romance. An excellent book by the extremely gifted author.***

*Britt and Korbie are stranded in the mountains so knock on a hut, hoping someone is inside. There is, to their relief. But will that relief last long? Are Mason and Staun who they say they are? Or is there a story behind Staun welcoming air and Mason's cold one? There's only one way to find out...*

*This is a great book. In fact, it is so great I started repeating the story to my friends and family and recommended this book to them. We all enjoyed reading about the peaks and misfortunes of Britt's adventures, and felt a pain in our own hearts as she faced heartbreak and betrayal. A beautiful, beautiful novel.*

**Louisa Alice Cunliffe, age 17 - @LouisaCunliffe**

***WOW. My heart didn't stop racing until I'd finished the final page. Her plot is beautifully crafted so that it weaves together fear, mystery and romance in a way that makes it impossible to put down.***

*Two girls Korbie and Britt plan to spend spring break in a cabin in the mountains but it all goes wrong when they are trapped in a snow storm on the way up the mountain. Lost and alone they are forced to leave the sanctuary of their car in search of help. They are rescued by two strangers Mason and Shaun*

*but all is not what it seems. Three girls have gone missing in recent years in local area and there are rumours a man in a black Stetson is responsible. So are Korbie and Britt truly safe?*

*This book by Bella Fitzpatrick is astounding, it creates a rollercoaster of emotion and the ever evolving plot means that with every turn of the page you are unsure of who to trust. This book delivers on all levels and has something to offer every teenage reader- it has the mystery, the fear factor and the romance. In fact this book shows how blinding, scary and unpredictable love can be better than any other book I have ever read ( and that is saying something ). This book is definitely worth a read. It would be a travesty if it didn't end up on the bestsellers list!*

**Amy Laws, age 13**

***I was hooked from page one, I struggled to put it down!***

*I thoroughly enjoyed this book. The first chapter really gripped me, as an opening should. It made me curious to find out what it was about and how it was related to the next few chapters. This isn't normally my type of book but I really enjoyed it and hope to try a few more of this genre in the future.*

*Overall, this is definitely worth reading and I. Would thoroughly recommend it.*

***Wow! This was by far the best thriller I have ever read - a perfect Halloween read.***

*Twist after twist after twist. This book was so suspenseful and completely unpredictable.*

*I loved the complexity of the story line and how you could trust no one. I don't want to say too much in case I give any of the plot line away. But I will say it is a must read!*

*My favourite character was Brittany because she was so strong she even surprised herself. And Mason is by far the most cryptic well put together character I have read in a long time.*

*Yet again another amazing book from Becca Fitzpatrick, author of the best selling Hush, Hush series. Easily 5/5 stars! I hope there are many more books like this to come from her in the future.*

**Imogen Fisher, age 14**

***I enjoyed reading this book, I found the characters interesting and I definitely empathised with them.*** I also liked that the book was unpredictable, and this made me want to read more. The only thing I would say, is that certain parts of the book aren't that realistic. But I would read other books by Becca Fitzpatrick, if given the chance.

**Aimee Sweet, age 13**

*Falling in love should never be this dangerous...*

*'Black Ice' is Becca Fitzpatrick's fifth book but it is the first book I've read by her.*

*Anyone who goes in Grand Teton National Park is in danger. Young teenage women who enter the Park seem to disappear without trace. Lauren Huntsman enters a bar on her own and leaves with a man known as Shaun. The next day she is nowhere to be seen and neither is Shaun. This is only one example of the kidnappings taking place recently in the Park. What is happening? Will Britt and Korbie survive in the treacherous weather? And will they find Calvin, Corby's brother, before it's too late. This is a psychological thriller located in the mountains of Wyoming.*

***This incredible book puts you on the edge of your seat and the pace is kept up throughout.*** The book genre is not only thriller but also romance, mystery and action. I would recommend this to girls aged 14 +. I give it a four star.
