*Fab book full of teen drama and the troubles that can come up on the road to becoming popular.*

*Brilliant well written book, Carla is an amazing character and guides you through the book giving her opinions and leading you through her problems. This book helps you understand the world of peer pressure and drugs, as well as what the wrong decision can cause. Carla starts at a new school and is approached by Finn, a popular, yet she's already made friends with Sienna and Lauren so she has a choice stay with them or go with the populars... Carla chooses the wrong road and it can only go down from there and get worse.*

***This is an amazing story and has an excellent story line I would really recommend it to teenagers around 15+, but it is very well written and you never want to put the book down!***

***Oh wow, what a book... I'm speechless... I'm re-reading it... It was so good.***

*Carla is seventeen and has just moved to London with her family. She seems to do this a lot as she is starting another new school, where yet again she really*

wants to fit in. She meets a good looking lad, Finn and they get together. Carla's A grades starts to slip as she becomes entwined with Finn and everyone tells her he's no good, even his brother Isacc. Has Isacc got an ulterior motive?

***This is an amazing book and the best I have read in a long time. A thrilling book with lost of twists and turns. Definitely one to read! Couldn't put it down.***

*An amazing book always made me want to read on. I read this in the space of two hours as I couldn't put this book down. I would definitely read another one of these books as they show issues that happen everyday and people will be able to relate to some issues. I can't wait for another book written by Katie and can't wait to see the adventures of the future characters and story lines.*

***'Drop' was a fabulous, strong novel. I did think the plot was quite typical and I could see what was going to happen from the middle of the novel nevertheless it was still a great book and gave out awareness of drugs and alcohol. I loved reading 'Drop.'***

***Carla has just moved to a new place and is not looking forward to making friends in a new school, but she need not have worried as she quickly makes friends with some cool people. Other people who notice her are not as nice as they seem but Carla can't help but be drawn to them much to the disappointment of the nicer friends she first met. Finn and almost all of his cool friends make her welcome in their gang, this is not ideal as they like to take risks and are constantly pushing their limits and luck. Finn's older brother Issac is the one guy looking out for her but she likes the bad guys and keeps letting Finn drag her down as everything else in her life starts to slide downwards she needs to pull herself together or she will sink so low she will ruin her entire future.***

***'Drop' makes you feel very involved in what is happening to the characters. You feel like you are in the story and going through their problems with them. It really makes you think.***

## **Sarah Murray**

***A very relatable story of what it is actually like to be a teenager in the twenty first century. This book looked at the hard reality of drink, drugs and peer pressure that is rife in today's world.***

*This is a very interesting book. Everson portrayed the reality of teenage life very well however, as a result of that there were moments where the storyline felt slow. This actually worked in the story's favour as it made the drama that unfolded feel more realistic.*

*I personally enjoyed this book as I felt as though I knew the characters in real life, I have a friend who is like Carla and there is a boy in my year like Finn and as a result of that the book became more poignant. However, in parts it felt a bit like a soap. The story itself had a good arc and I liked the way it ended with Carla coming back to her true self when she got away from the drug scene.*

*Overall, I enjoyed the book and I would give it a solid 3.5/5 stars.*
