Fabulous book, full of fun and excitement.

I loved this book which about three main characters Cosmoe, an alien called Humphrey and Princess Dager.

I liked it because it was very easy to read, it had lots of pictures and cartoons and lots of action and you didn't know what was coming next.

My favourite bits were the fighting bits.

I would recommend this to anyone who loves action books but doesn't want pages and pages of writing as it's broken up nicely with pictures and is quick to read alone.

If you are a big fan of comic strips, then you will love this book, because virtually every page is full of amazing illustrations!

Most boys on Earth can only dream of the cosmic adventures that Cosmoe has in this story. He's the lucky one though, because he got to go to space and not return... This book is chock full of cool illustrations and it also has a great storyline. I particularly enjoyed reading the F.R.E.D. facts, as they helped me to understand more of what was happening as the story unfolded. After all, we Earth boys aren't experts in the workings of the universe! I'm going to recommend we get a copy of this story in our school library and I can imagine

there will be a long waiting list for it when word gets out about how much fun it is to read.

This book is awesome. I would read it over and over again. If you like 'Captain Underpants' and comic strip books, you will probably love this!

I read this book over a couple of days as I couldn't put it down. This is one of the best books I have read this year. It's awesome! There are lots of funny illustrations and things to look at on most pages. If you like space adventure and 'Captain Underpants', then this is the book for you. I am reading it again as it was so good. Cosmoe has a best friend called Humphree who is also as crazy as Cosmoe. This was space adventure at its very best and I can't wait for book number 2!

A quick fun and adventurous read-and a little bit crazy!!!!

I enjoyed this book because it's got a VERY fun plot!

This is a really funny book about an earth kid called Cosmoe trying to win a food competition but when his prize hot dog is stolen he makes friends with the thief and things start to get crazy...

I'd give this book 9/10 and recommend it for ages 7+ both boys and girls.

I really enjoyed this book. My favourite was Cosmoe because he went on cool adventures with his robot friend and it brightened up my holiday.

Join Cosmoe and Humphree on a heart stopping adventure in the middle of the Galaxy. Cosmoe and Humphree are making a huge hot dog the size of a jeep to enter the biggest food contest in the Universe.

Cosmoe and Humphree have the time of their life exploring the galaxy until they find a piece of a map that leads to the ultimate evil. Together they have to stop evil spacemen from getting the map and releasing the ultimate evil.

This book was very funny, it made me laugh a lot. There were lots of interesting well drawn illustrations and comic strips. For people who like 'Tom Gates' book this is the book for you. This book was very descriptive in the action scenes.

I would recommend this book to children who like 'I am not a loser' and 'Tom Gates' books.

Totally unique and hilarious, I devoured it in a couple of hours and was completely glued from the first page to the last. It's one of the funniest adventures I've ever read.

Galactic Hot Dogs – Cosmoe's Wiener Getaway is one of the funniest adventures I've ever read. It's the story of Cosmoe, a boy from earth, who sells hot dogs in space with the help of his retired-space-pirate partner, Humphree. The friends enter a cook-off run by the evil Queen Dagger to make the best food in the galaxy and they are sure that their giant hot dog, The Mega-Dog, will win. However things don't go well for them as Princess Dagger steals the hot dog and can only be stopped by Cosmoe's buddy Goober, a small creature which lives on Cosmoe's wrist. When the princess is found on board their ship, they are blamed for kidnapping her but their adventure has only just begun. They find themselves battling zombies, wrestling worms and coming face to face with The Ultimate Evil. Will they make it through alive and can the Mega-Dog survive in one piece?

I devoured this book in a couple of hours and was completely glued from the first page to the last. The comic book style is fantastic, I loved the references to Star Wars and the character stats were brilliant. A totally unique and hilarious escapade. I can't wait for the next in the series.

I felt as if these adventures were happening to me!

If you like hot dogs, adventures and space travel you will like this book and if you have enjoyed 'Tom Gates' books you will probably enjoy this book as it's

written and illustrated in a similar way.

When I first opened 'Galactic Hot Dogs' it felt like I was on a journey into space. I felt like the adventures were happening to me! I wondered what the Ultimate Evil Monster felt like when the hot, hot, original sauce hit his heart.

My favourite part of this book is the video game Apocalypse. What I did not like about the book is it's basically got nothing to do with hotdogs! I would rate this book 4.5/5 because I love the way it is presented. I would recommend it to children aged 7-12.

Cara Anderson, age 10

'Galactic Hotdogs' is a very good book! It is very exciting, especially when princess dagger gives the map- o- sphere to her evil mother queen dagger, and Cosmoe and Humphrey thought she had gone back to her evil mother's side but they were wrong because she actually saved him!

I defiantly recommend it to any one especially if you like comics it isn't a comic but it's a bit like one.

This is the abridged version of my book review! :)

In the far future there is an alien called Humphree and his best friend Cosmoe the Earth-Boy.

Humphree and Cosmoe are making a mega weiner which is the size of a jeep. They have made it for the Intragalactic Food Truck Cook-OFF which is a festival where everyone makes something to eat the QUEEN will judge it. It is a large competition but Cosmoe thinks he will still win it with his wiener... Until, someone takes his mega weiner....

Cosmoe has a rubbery elastic blob that is forever wrapped around his arm and can't leave or he will die. His name is Goober and he can turn into things. Goober lassoes the weiner thief. That's when they realise that they have just lassoed the evil Princess Dagger. They quickly escape in their ship, the Neon Wiener. But then, they realise that Princess Dagger is on board and that the Royal Navy are after them.

Soon the whole Armada (the Queen's ship) is after them. The Queen sends a jet to unkidnap her daughter but the Princess doesn't want to go so she attacks and kills the Jacks (they are the robots in the Navy) and has a big temper tantrum so

Cosmoe lets her stay. They fly past the Navy and Armada to safety on the Interstellar Highway. NOT! Again, the Queen sends a message to all the ships to unkidnap her daughter but after a bumpy ride the Princess saves Cosmoe and Humphree with a weiner surprise.

Cosmoe, Humphree and the Princess's adventure continues with THE LOST TRIANGLE, ZOMBIE SPACE PIRATES and the ULTIMATE EVIL...

Can the Queen stop them?

Does the Queen get her daughter back?

If you are intrigued and want to know more, you'll need to read the book!

I really enjoyed this book and all the comics in it.

I recommend this book to 8+ comic and adventure lovers.

*I give it 6 out 5 stars. ******
