

LoveReading4kids Reader reviews

Little Red by Bethan Woollvin

TWO HOOTS

Below are the complete reviews, written by the LoveReading4kids members.

Olivia Townsend, age 4

A twist on children's favourite 'Little Red Riding Hood' with striking Scandi style illustrations.

'Little Red Riding Hood' is one of my daughter's favourite books so she was excited to read this version called 'Little Red'.

The story isn't too dissimilar from the original but this character won't be fooled!

We loved the illustrations. Simple black and white with splashes of red on each page. My 4 year old loved the sarcastic little girl in the story and the way in which the wolf was tricked!

A good stimulus for discussion about alternative endings.. we then retold stories to each other and altered the endings!

Emily Welbourn, age 5

A striking and original re-telling of a timeless classic, with a unique and modern twist. This is Little Red as you've never seen her before!

This is such a striking and unusual story, from the bold red and black illustrations to the re-imagining of Little Red as a brave and fearless character who isn't fooled by the wolf's lies or "elaborate disguise" for one minute! It was nice to see a fairy-tale heroine who is more than capable of looking after herself and doesn't take any nonsense, and yet the story doesn't lose any of the charm of

the original tale for being a little bit different. 'Little Red' is a quirky, modern take on a timeless classic and my five year old and I both enjoyed this story very much.

Annabel McNeil, age 5

I really loved this book. I liked the big pictures and the way the red stands out on each page. I liked the big writing too it made it much easier to read. The story finishes in a different way to all of the other Red Riding Hood stories I have read before and I thought this was funny.

Ellie and Victoria Lambert

Ellie said she really liked the story and that Little Red Riding Hood was in charge!

The pictures were scary and made it seem like the wolf was real.

She thought that it would be a good book to be read in classrooms as well as at home.
