

LoveReading4kids Reader reviews of Puppy Academy: Scout and the Sausage Thief by Gill Lewis

Below are the complete reviews, written by LoveReading4kids members.

Daniel Bisland, age 7

This book is about a lot of puppies in an academy called Puppy Academy. The main character is Scout (she is a German Shepherd) and she is training to be a police dog. Scout's dream is to catch the notorious Frank Furter before he steals all the juicy sausages like venison and redcurrant, chipolatas and chorizo.

That day, the puppies are trying to get their Care in the Community badge. On the way to school, Scout helps a little girl and Scout gets dirty and then she is late for school and two of her tests....

Does she get her badge or are there consequences?

Do they catch Frank?

I give it 10/10 and recommend it to 7+ animal lovers. I can't wait for more books. I love the illustrations!

Constance, age 8

Scout is the most adorable and lovable puppy I've ever heard of. I wish she was mine! Make no bones about it, boys and girls who love characterful

dogs will adore Scout and the Sausage Thief!!!

Annelie Jonsson, age 5

A fun and entertaining story with a good message about false accusations. We're looking forward to another adventure.

Annelie liked the book for its fun characters like Frank Furter and Major Bones. She thought it was funny Major Bones never got to answer his telephone. Her absolute favourites were the mice. She certainly had fun trying to guess what had happened to the crunchy munchies! This is an entertaining story with a good message about false accusations. This was an enjoyable read for a five year old.

Oscar Smith, age 8

This book is about a puppy that wants to be a police dog! I would recommend this book to young, emerging, relatively new readers.

I enjoyed this book, especially the illustrations. I hope to read the next book in the series of 4.

I think this book is good for new readers because the words are big, the book is short and the story is fun.

Connor Lobban, age 7

Will Scout find the sausage thief? Read and find out.

We meet a puppy called Scout whose Mum and Dad are police dogs. Scout wants to be the same. Scout goes to an academy and meets new friends. Academy is hard and catching baddies is not easy. This book was cool and interesting. My favourite character was Scout because she is very brave and talented. I loved all the chapters especially the end which was amazing. I would read more of these books because they are so interesting. I would give this book 10/10.

Emelia Thomas, age 7

I think everyone will love this mysterious story because Scout teaches us how to stand out and be brave ourselves.

I loved this book because Scout is brave. He captures the bad dog and tries to rescue an elderly lady from a flooded bungalow. I even enjoyed the sad bits, especially when Scout had to leave the Academy, but did not like it when Scout's friends were mean to him.

Hannah, age 7

It's all about dogs and I love dogs.

This book is important in parts for some people because if they own a dog it shows you how to treat a dog.

It's very funny when Scout runs through the park and gets very muddy and brambles around his collar.

We've got a sausage dog so the book has a really big sausage dog that has a loud voice.

I would recommend this book to dog lovers everywhere.

Emily, age 6

The story is happy and exciting. Children who like dogs will like this book.

The main characters are Scout and Frankfurter.

The story is about a puppy who catches a thief.

In the end the sausage festival can go on.

The story is happy and exciting.

I liked this book because I like dogs and other children who like dogs will like this book.

Beatrice Whithear, age 8

This book is about a German Shepherd Puppy called Scout, who is in Sausage Dreams Puppy Academy. All she wants to be is a Police Dog like her Mum and Dad.

I flicked through this book and the first thing I liked was the great pictures and the meet the dog pages.

Scout was a great character and I really liked her, she always tried to do her

best.

My favourite part was towards the middle where Scout was guarding the Crunchie Munchies and they go missing. I really didn't expect that to happen, or that her friends would think it was her.

The dogs' names were really good and I liked knowing what breeds they all were. The name 'Frank Furter' for the Sausage Thief was brilliant.

It was good that the book had a sort of moral about helping each other, the mice finding the missing phone was funny.

I read the book quickly as it was a great, fun read. I would give the book 9/10 and would definitely love to read the other books in the series.

Rebecca, age 5 (soon to be 6)

I enjoyed the book because it was funny.** It was funny when Scout was guarding the shed and they thought he ate the crunchie munchies while he was guarding it. My favourite character was Scout because he saves the day. I think boys and girls would really like to read the book. I liked the pictures because it helped me to understand what was going on. **I want to read the other books because they might be exciting too.

Phoenix Williams, age 7

*Puppy Academy is full of interesting characters. **I would recommend it to younger readers and animal lovers.***

Lily Benner, age 10

An easy and entertaining read.

Scout really wants to earn her Care in the Community badge from The Sausage Dreams Puppy Academy. She sets out to take her test and, because she is doing good deeds on the way, she arrives late and dirty. Major Bones doesn't like this and says she can't do the test. Scout is put on guard duty instead and has to force smiles and congratulations when the other puppies pass their tests.

All is not lost though because Scout does prove her worth in the end.

An enjoyable book with lots of cuteness in it.

Emily Lonsdale, age 9

Lovely book about puppies who are doing training to do different types of jobs like Police Dogs and Guide Dogs

This book is about a dog called Scout who is attending a Puppy Academy where all the puppies are learning to be different types of dog jobs like Guide Dogs and helping dogs. Scout is training to be a Police dog and in this book is trying to get a Care in the Community Badge. Something goes wrong with this and the rest of the book is about how Scout goes about resolving it.

I liked the pictures but found the book a bit short. I think perhaps its more suited to 5 to 7 year olds as the writing is quite big. However the story is good and I am going to look out for subsequent books and see what they are like.

Luke Killen, age 7

A very funny mystery.

I really enjoyed Scout and The Sausage Thief, it is a mystery book with lots of very funny parts that made me laugh.

There were some unexpected twists and turns which meant I couldn't put it down and ended up reading it all in one go.

I loved this story and think it is one of the best books I have ever read that is aimed for children my age to read to themselves.

I am looking forward to reading others from the same series.

Thank you.

Annabelle Cassidy, age 6

A funny book with lots of adventures, so good I read it all in one day.

This was the best book I have reviewed yet. It was so good I read it all in one day and can't wait for the next one.

The book is about a puppy called Scout, who is late for puppy school one day because he was being helpful. He took a test at school which he thought he had failed, and had to do extra tests to make up.

When he failed these extra tests he was expelled so he ran away so he didn't have to tell his Mom and Dad. While running away he found his enemy, and took him away to jail with paw cuffs on. Everyone was happy with him and he

was allowed back to school.

My favourite part was when Scout caught Frank Furter because it made me laugh when he shouted out.

I would recommend this book to children that like adventures, and animal books, aged 6+.

And Anabelle's Mum liked it too!

As a parent I was amazed that this book captured my daughter from the first page. She read it entirely to herself, all in one day, the first time she has ever done that. She loved the story and has told all of her friends all about it, wanting to share it with everyone.
