Lovereading4kids Reader reviews of
The Tapper Twins Go To War (With Each Other) by Geoff Rodkey

Below are the complete reviews, written by Lovereading4kids members.

Kelise Brown-Morgan, age 8

‘The Tapper Twins Go to War (with each other)’ is a funny book full of lots of adventures and mysteries!

The story is set in lots of familiar places: outside, in school, at the shops and at home. I liked this book because it is funny. My favourite part is when Reese calls his sister Princess Farts-a-lot!

My favourite character is Reese because he feels sorry for himself and does whatever he can to make Claudia (his sister) happy. I like him because sometimes he behaves badly, but sometimes he is good. He does stop embarrassing his sister and does the right thing though!

The book has got pictures but not like a normal picture book! It has photos and pictures of emails and text messages. I think it is great!

I would read another book by Geoff Rodkey because I like the way he describes his pictures and it makes me want to read the book again.

I would recommend this book to a friend because it is really interesting. I give this book 5 stars out of 5!

Olivia Faulkner, age 8

‘The Tapper Twins go to war (with each other)’ by Geoff Rodkey is good overall. It is a story about twins who have a war on the computer with each other. I like that it describes all the characters well. However, it could be
improved, when it uses made up words I don't quite understand that much because they don't make much sense, so I'd rather they didn't use them. I enjoyed the part when you find out that Claudia is worst enemies with Xander and Sophie is worst enemies with Reese. **Personally I think that Geoff Rodkey is a very good author...**

**Alex Crisp, age 9**

*It's so funny that my older sister wants to read it too, even though she has a big list of other books to read.*

Before I started reading this, I thought I was really going to enjoy it because it sounds similar to another book I have read and liked. When I actually started, I didn't like the layout that much. It is a bunch of interviews about what happened, mixed in with text messages and photographs. But then I got really into it and I really wanted to know how it was going to end. They don't actually fight, as the name suggests, but they do attack in other forms which are really funny and unexpected. The attacks got more ridiculous and then they started attacking each other within a game similar to Minecraft, which I have played a lot. This was fun because I could imagine doing things like that myself. There are also lots of interesting facts about World War I and snippets from films. I would recommend it to my friends, and my sister's friends too.

**Isabelle Stevens, age 7**

War between a brother and sister that goes on for weeks. It's funny and I really enjoyed it.

*It is about a brother and sister who start an argument that goes on for weeks. It made me laugh out loud. I like the way the book is written like a script. So the story moves on really fast. It has pictures and cartoons in which just add to the story.*

**Alexander Bisland, age 9**

This book is about twins called Reece and Claudia who go to war with each other. It all starts off with Claudia eating Reece's toaster pastry so at school Reece gets her back by saying she farted! The war escalates from here and they do horrible things to each other. The book is made up of emails, texts and side notes written by Claudia, her brother, her family, her friends and her enemies!
I liked this book because of the style it is set out in. If you like a book that is different, read this one!

I recommend this to 8+ readers who like fighting with their brother or sister.

It’s a good book and deserves 10/10.

**DO NOT DO THE THINGS THAT THEY DO IN THIS BOOK BECAUSE YOU MIGHT GET A CRIMINAL RECORD OR WORSE!**

**Sam Harper, age 11**

*The twins find really inventive ways to get back at each other and this created a very original comedy which made me laugh out loud.*

The Tapper twins, Reese and Claudia, get along fine (well almost) until someone farts. Reese blames Claudia and calls her Princess Farts-a-lot. Claudia declares war on Reese and launches Operation Fishy Revenge. But it fails as no one thinks the backpack smells and, as with all wars, there are innocent casualties i.e. Reese’s backpack has to be put in the bin. Reese tries to video Claudia picking her nose and Claudia gives him a mohican which backfires as all his friends think it’s really cool. The battle rages online when Claudia creates a Metaworld account. The world she creates is full of poor musicians and artists but she hasn’t quite got the hang of ruling it yet. She soon realises that Reese puts all of his efforts into making his castle even bigger. He doesn’t even care about the zombie chicken outbreak in his world. It’s a strange place where to earn money you have to do something either violent or psychopathic. Claudia needs to be invincible and have a gun with unlimited ammo in order to destroy Reese’s world but will this be enough to win the war? There’s cyberbullying on Clickchat as well as school suspensions and they all need to be documented in this amazing oral history of their war.

I loved the battles which raged through this amazingly funny book. They found really inventive ways to get back at each other and I especially liked The Vest Song, Reese’s made up words. The way that the book is written in texts, Clickchat, Metaworld chat logs and photos is absolutely brilliant. A very original comedy which made me laugh out loud.

**Cameron Lobban, age 9**

Addictive. I could not put it down!

This book is about a boy called Reese who ruins his twin sister Claudia’s
reputation. Ever since the humiliation happened she has been wanting to get back at him. Read on to find out what funny and epic things they do to each other. **I read this book in 2 days as I could not put it down.** Reese was my favourite character as he came up with cool ideas but Claudia was also good as she was even smarter and thought one step ahead. This book would suit boys and girls. If you have a child that is glued to computer games and doesn’t like reading get them to try this as they will love it.

**Georgie Docwra, age 9**

**One of my top ten favourite books!!**

*I really enjoyed this book because I like the way it is written like a play script using all the characters voices.* It is very funny and made me laugh out loud!

*I know exactly how Claudia feels because I am also a twin - sometimes it’s hard work!!*

**Alina Wraith, age 9**

*I thought this was a great book by Geoff Rodkey and would like to read more by him.*

Overall this was a good book in an informal style and so easy to understand. It was about twins who have ‘the worst argument in history’ according to Claudia. She thinks that Reese (her twin) started the war but Reese thinks it was her and this leads to a big fight starting with a fish.

*I thought this was a great book by Geoff Rodkey and would like to read more by him.*

**Alexander Butler, age 10**

*This is an extremely funny story about the relationship - well, war between a brother and sister that anyone with a sibling will love!*

The book was brilliant! My favourite part was when Claudia destroyed Reese’s Meta world army, and burnt then down his castle (LOL).

The story is hilarious and so is the huge argument that the story’s based on. The fembots are really funny, especially the version of them reincarnated.
The whole book reminds me of my brother and I, but myself as the girl as the smarter one!

The author gives more detail of the characters over the course of the story and I enjoyed it due to all the humour and excitement it has.

I’d recommend the book to over 6 year olds.
